

‘The Sebel Parramatta’ join Daracon Croft Racing in new season campaign

Daracon Croft Racing is ready to tackle the 2008/09 season head on, starting with the first Round of the East Coast Late Model Series at Tyrepower Parramatta City Raceway (NSW) Saturday September 20th.

Team principal Ken Croft was excited about the Daracon Croft Racing Team’s prospects for the upcoming season.

“Season 2008/09 is looking good, and I am extremely proud to announce that ‘The Sebel Parramatta’, a high class Hotel catering for the corporate sector and the leisure traveller, has signed on as a Daracon Croft Racing team sponsor”.

“‘The Sebel Parramatta’ provides first class service across the board, with everything from top line conference facilities, to high quality accommodation, and fine dining. It’s fantastic to have ‘The Sebel Parramatta’ join our team, and they will be providing Daracon Croft Racing with a high level of support across the entire season. Daracon Croft Racing will be working extra hard to ensure that our arrangement with ‘The Sebel Parramatta’ is extremely beneficial to both parties” said an enthusiastic Croft.

“All of our long term sponsors and supporters, such as Daracon, are back on board, and everything is pointing to a great season. To be honest, in 2007/08 we didn't achieve the results that we had hoped for, so we have spent the off season going over the car, and are confident of a much improved showing”.

“The East Coast Late Model Affiliates have released a sensational schedule, with an 11 Round East Coast Series, the two night G Shock Gold Cup at Parramatta at the end of January, two nights of racing to decide the NSW Championship right here in our 'backyard' at Tamworth and Gunnedah, and another two nights at Mildura. I guess you can tell that I'm really keen to get behind the wheel” concluded Croft.

To keep his hand in over the winter months Ken Croft gave the Daracon Croft Racing # 71 Rocket Dirt Late Model a brief shakedown at Tamworth Speedway and was happy with how the car performed, and the track conditions.

The team expects to have its new transporter on line for Round 2 of the East Coast Late Model Series in early November.
